- = Sonntage
- W = Weide
- L = Laufhof
- S = Schlechtwetter

Eintragungen : Der Auslauf ist je Tierkategorie spätestens 3 Tage danach im Journal einzutragen. Der Beginn der Winterfütterung muss festgehalten werden.

- Tierschutz (OeLN) : nur der Auslauf der angebunden gehaltenen Tier muss aufgezeichnet werden.
- RAUS : Vom 1. November bis zum 30. April: Auslauf mindestens an 13 Tagen pro Monat
 Vom 1. Mai bis zum 31. Oktober: Auslauf mindestens an 26 Tagen pro Monat
- Weidebeitrag: Vom 1. November bis zum 30. April: Auslauf mindestens an 22 Tagen pro Monat
 Vom 1. Mai bis zum 31. Oktober: Mindestens 26 Tagen pro Monat auf einer Weide

- S = Schlechtwetter

Betriebsleiter, die Direktzahlungen beantragen, müssen den Vollzugsbehörden nachweisen können, dass sie die Anforderungen erfüllen. Das Weide- und Auslaufjournal ist ein Teil des Belegs. Die Aufzeichnungen müssen glaubwürdig sein und der Realität entsprechen!

Für Ausnahmen, siehe detaillierte Anforderungen.

Für raufutterverzehrende Tiere, die während einer gewissen Zeitspanne dauernd ¹⁾ Zugang zu einer Weide oder einem Auslauf haben, muss nur am ersten und am letzten Tag ein Eintrag gemacht werden.

Für weibliches Rindvieh unter 160 Tage und männliches Rindvieh, das dauernd ¹⁾ Zugang zu einem Laufhof hat, ist keine Journalführung nötig.

¹⁾ *dauernd = jeden Tag und 24 Stunden pro Tag.*

Dieses Dokument muss während 8 Jahren aufbewahrt werden.
